**THE CITY FATHERS MEET.**  
The city council held a meeting last night, the first since the 19th day of August. The members present were Fikes, Thomson, Johnston and Scott. Addings was out of town and Day was probably otherwise engaged.

The first business transacted was the granting of certificate of fireman's service to T. T. Keliher and R. A. McMurray.

The Third ward hose company presented a report giving the names of the active members, of which there are twenty-four.

Mayor Baker stated that he had driven over the city a day or two ago and found twenty crosswalks which needed to be repaired or replaced by new walks. The marshal was instructed by the council to have this work performed.

It was reported that there were many sidewalks in the city which were in a dangerous and disgraceful condition, and it was the opinion of the council that property owners neglecting to repair their walks should be promptly brought to time. The marshal will probably interview interested parties.

Councilman Johnston thought the time was ripe for the extension of the city limits, and made a motion that the city attorney be instructed to commence proceedings in enlarging the city limits according to the survey made several years ago. The motion received but three votes, and was therefore lost. The matter will be brought up at a future meeting of the council.

The marshal presented a bill for killing thirty-four dogs, and this led some one to ask if the marshal was pursuing the tactics of the Omaha dog-catcher. Clerk Schermann assured the council that the marshal was turning the scalps of the slaughtered canines over to him and that the ground in the rear of his office resembled the back-yard of a tanning factory.

The enforcement of the awning ordinance was thoroughly discussed, and it was decided to have the city attorney bring another action against Judge Hinman.

**TO WHOM IT MAY CONCERN.**  
It having been brought to our attention that owing to the similarity of the name assumed by a local organization of women who style themselves "S. A. Douglas Circle, Ladies of the G. A. R.," many persons have been led to believe that said organization is an auxiliary of S. A. Douglas Post No. 69, G. A. R. We desire to inform the public that said organization has no connection whatever with S. A. Douglas Post No. 69, G. A. R., and their assumption of the name of this Post for their organization was without the consent of the Post. The S. A. Douglas Women's Relief Corps is the only women's society that has authority to use the name of this Post, or that is in any way connected therewith.

A. M. MASON,  
Commander S. A. Douglas Post No. 69, G. A. R.

F. PEALE, Adjutant.

### NEBRASKA NOTES.

Cholera is killing hogs near Fullerton.

The little town of Hoskins is to have a \$1,271 school house.

Boone county's fair this year was the most successful ever held in the county.

Pender schools have an enrollment of 220 pupils, Dodge 175, Scribner 181, Norfolk 900.

Nels Johnson of Fremont pulled up a sugar beet the other day that weighed sixteen pounds.

Saline county has now five tickets in the field republican, populist, prohibition and two democratic.

There were five weddings in Nance county last week which lacked considerable of clearing the docket.

Land owners near Humboldt have constructed an artificial lake of sufficient capacity to irrigate 300 acres.

Some miscreant put about a dozen matches in a stack of oats on a farm in one of the western counties, but they were discovered before the oats went through the separator.

The Nebraska City distillery is indebted to our Uncle Sam in the sum of \$2,337, and he has served notice that he must have the stuff or the plant will be sold to satisfy the claim.

John Olson of Bancroft fooled with the rolls in a flouring mill when the machine was in motion, and came near losing his hand. It was a close call, but he broke away after the first pinch.

William Zook of Nemaha had an altercation with his better half and precipitated a crisis by knocking her down. He then took to the woods in time to escape the wrath of an indignant populace.

Of the ninety-six teachers employed in Richardson county, seventy-eight received their education in those schools. Fifty-eight of the seventy-eight attended a high school or normal to complete their education.

Rev. Franklin preached his fare-

Members of the Presbyterian congregation living north of Wayne placed fifty bushels of wheat in the mill subject to the order of the pastor, Rev. Wright. He will at least have an abundance of the staff of life for the winter season.

Dr. A. P. Sawyer—Sir: After suffering four years with female weakness I was persuaded by a friend to try your Pastilles, and after using them for one year, I can say I am entirely well. I cannot recommend them too highly. Mrs. M. S. Brook Brownson, Bethel Branch Co., Mich. For sale by F. H. Longley.

It is astonishing how the irrigation movement is spreading. It was formerly confined to the arid section of the west. Then it lapped over into the semi-arid localities. Having proven to be such a good thing, or in other words the farmer having learned that water will grow crops, fruits and various other things, the farmer of the middle states is waking up on the subject and a little interest is awakened even a way down east. Having water to apply to when it is needed is a great deal better than wondering when it is going to rain.—Hub.

Pale, thin, bloodless people should use Dr. Sawyer's Uratone. It is the greatest remedy in the world for making the weak strong. For sale by F. H. Longley.
